SUMMARY

Consummate professional with varied expertise in UX, web and graphic design. Versed in strategic and tactical project management throughout the entire product life cycle. Results-driven and comfortable in large team-based agile environments as well as independent consultation.

EXPERIENCE

UX Designer

AndPlus LLC, Framingham, MA | April 2015 - Present

Consulting with clients and engineering teams to groom out product backlog and realize application architecture. Applying research methodologies such as 1-on-1 interviews, focus groups, ethnographic studies and contextual inquiries. Creating style guidelines and pattern libraries while unifying cross-platform experiences. Providing explorative and declarative paper prototypes, wireframes and prototypes. Conducting QA testing and overseeing developer output to ensure optimal adherence to "doneness" criteria. Collaborating with clients and development teams on iteration by providing usability testing and heuristic evaluations.

Creative Director

CoCreation Works, New York, NY | June 2013 - Feb 2015

Created Omnigraffle wireframes based on research results and conducted grooming sessions with clients on business-facing and customer-facing projects. Mocked up web and mobile application layouts using PS and AI. Collected and exported marketing collateral using ID for all print campaigns.

Design Management Lead

Kristin Hanson, New York, NY | Mar 2013 - Jan 2015

Provided life-cycle design collateral for responsive websites – from initial white-boarding through functional prototypes. Collaborated with engineers through Basecamp to iterate on website redesigns. Designed and co-developed ecommerce website on the Magento platform using analytics-derived data. Created content for and managed the company blog as well as all email campaigns via Constant Contact.
